

POST-OP INSTRUCTIONS: TEETH CLEANING

- You may experience some cold and heat sensitivity (especially after deep cleaning)
- If you have received anesthesia do not eat anything until the numbness has worn off.
- Continue your regular brushing and flossing
- Some bleeding for a day or two after cleaning is normal, if you experience any excessive bleeding please call our office
- Call office if you continue to be in pain

We are here to help if you need us! Please contact our office at 610-667-2770 or info@drweinstock.com if you have any questions or issues with these instructions.
